Education

- **Northeastern University** — Boston, MA, US
  Master of Science in Robotics, Computer Science track; GPA: 3.67 — *Sep 2021 - May 2023*
  - **Selected Coursework**: • Reinforcement Learning and Sequential Decision Making • Robotic Sensing and Navigation • Control System Engineering • Mobile Robotics

- **Beijing University of Chemical Technology** — Beijing, China
  Bachelor of Engineering in Mechanical Engineering ; ***Distinguished Graduates Honor****; GPA: 3.35* — *Sep 2016 - July 2020*

Academic Experience

- **Sample-efficient learning in robotic manipulation** — Northeastern University, Boston, MA
  Research Assistant. Supervised by Prof. Robert Platt — *Oct 2021 - Current*
  - **Few-shot Imitation Learning (Link)** :
    - Proposed a novel data augmentation method that can create simulated expert data in 3D space
    - Introduced an $\mathbf{SO(2)}$-equivariant imitation learning architecture based on steerable CNNs.
    - Built a PS4-controller-based demonstration collection framework with PID control on a physical UR5 robot.
  - **Equivariant On-robot Learning (Link)**:
    - Designed OpenCV-based reward and reset functions for on-robot reinforcement learning.
  - **Simulator and Benchmarking for Robotic Manipulation (Link)**:
    - Assisted in designing and developing a simulation environment for benchmarking reinforcement learning algorithms in robotic manipulation.

- **Learning-based Object 3D Reconstruction** — BNU-HKBU United International College, China
  Research Assistant. Supervised by Prof. (Amy) Hui Zhang — *Aug 2020 - Aug 2021*
  - **Learning-based 3D Reconstruction**:
    - Served as team leader and implemented a pipeline for silhouette-based object 3D reconstruction, including salient object detection, object modeling (MAYA), and Multiphysics Simulation (COMSOL).
    - Developed a data analysis framework for 3D shape reconstruction using Principal Component Analysis (PCA).

- **Real-time High Resolution Plant Stress Prediction** — Boston, MA
  Collaborator: Dr. Wenzhe Jiao (MIT) — *Aug 2022 - Current*
  - **Parallel Computing**:
    - Built a parallel data processing library based on Message Passing Interface (MPI) for analyzing global soil moisture on supercomputer clusters.
  - **Remote Sensing Image Processing**:
    - Implemented an image projection & cropping tool for National Land Cover Database (NLCD), based on Geopandas.

Publications

- **Mingxi Jia***, Dian Wang*, Guanang Su, David Klee, Xupeng Zhu, Robin Walters, Robert Platt. SEIL: Simulation-augmented Equivariant Imitation Learning. Submitted to **ICRA 2023**. https://arxiv.org/pdf/2211.00194

Professional Services

- ICRA 2023 Reviewer

Skills Summary

- **Programming**: Python, MATLAB, C++, Assembly Language
- **Hardwares**: UR5, TurtleBot, Raspberry Pi, Siemens S7-1200 PLC
- **Softwares**: Pytorch, ROS, Linux, Solidworks, OpenCV, MAYA

Teaching

- **Reinforcement Learning and Sequential Decision Making, Northeastern University** Boston, MA
  Teaching Assistant - Prof. Chris Amato *Sep 2022 - Dec 2022*
  - **Lecturing**: Held TA office hours and mentored course projects.
  - **Material Design**: Designed midterm problems on MDP and dynamic programming.
- **Computer Organization(Fall, 2020), BNU-HKBU United International College** Zhuhai, Guangdong, China
  Teaching Assistant - Prof. Haipeng Guo *Aug 2020 - Dec 2020*
  - **Assignment Design**: Designed and reorganized lab instructions about micro-architecture, ISA, compiler, and circuit simulation.

Notable Projects

- **ORB-SLAM3 on iPhone (Link)**
  EECE554 Course Project- Prof. Hanumant Singh *Feb 2022 - May 2022*
  - **iPhone-PC Communication**: Built a real-time video streaming connection between PC and iPhone, using Wi-Fi routers.
  - **ORB-SLAM3 Optimization for Mobile Devices**: Conducted experiments based on the KITTI dataset and self-collected outdoor data, searching for the optimal parameters of FPS and illumination for mobile devices.
- **Hindsight Experience Replay for Robotic Manipulation (Link)**
  CS5180 Course Project- Prof. Robert Platt *Sep 2021 - Dec 2021*
  - **Hindsight Experience Replay**: Implemented the Hindsight Experience Replay paper using PyTorch in OpenAI gym's FetchPickAndPlace-v1 environment.
- **Mobile Rescue Robot (Link)**
  EECE550 Course Project- Prof. David Rosen *Sep 2021 - Dec 2021*
  - **Exploration & SLAM** : Built a self-exploration and cartographer-based SLAM turtle bot using ROS.
  - **Rescue Searching**: Designed a queue-based average filter for stabilizing Apriltag localization.

Work Experience & Leadership

- **BMW Beijing R&D Center** Beijing, China
  Intern. Supervised by Dr. Frank Lehnert, Mrs. Dawei Li *Oct 2019 - Mar 2020*
  - **Internal Coordination**: Headed the arrangement of internal surveys of innovative prototype improvements.
  - **Vehicle Benchmarking**: Assisted in the benchmarking of vehicle design, cost analysis, and user experience development of Human-Machine Interaction.
- **BUCT Debate Team** Beijing, China
  President *Oct 2018 - Oct 2019*
  - **Events Organizer**: Held university-wide debate competitions, creating opportunities to learn public speaking skills for minorities from undeveloped areas in China.
  - **Logic Lecturer**: Gave lectures for freshmen on methods of deductive reasoning and public speaking.

Honors and Awards

- Khoury Research Apprenticeship, Northeastern University - 2022
- Distinguished Graduates of Beijing - 2020
- Beijing University of Chemical Technology (BUCT) Merit Student - 2019
- BUCT Student Leader Honor - 2018
- BUCT Youngster Robotics Competition Second Prize - 2018
- BUCT Renmin Scholarship Second Prize — 2017, 2018, 2019
- BUCT Renmin Scholarship Special Prize — 2016
